DETAILED ACTION

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 56,59,70,71,73 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims of U.S. Patent No. 6,155,088. Although the conflicting claims are not identical, they are not patentably distinct from each other because they merely recite like elements using different terminology.

3. Claims 56,59,61-64,70,71,73-108 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims of U.S. Patent No. 6,588,241. Although the conflicting claims are not identical, they are not patentably distinct from each other because they merely recite like elements using different terminology.

4. Claims 56,59,61-67,69-108 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims of copending Application No. 09/603,240. Although the conflicting claims are not identical, they are not patentably distinct from each other because they merely recite like elements using different terminology.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Response to Arguments

5. Applicant's arguments with respect to claims 56,59,61-67,69-108 have been considered but are moot in view of the new ground(s) of rejection. Upon further review of prior art, it was determined that several double patenting issues remain as set forth above.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note the newly cited Murray '990 and Derman '350 references.
